

SAP Technical Upgrade for a Real Estate company

The Summary

Client has implemented SAP ECC 6.0 with EHP5 and approached AG Technologies for upgrading its Landscape to SAP ECC 6.0 with EHP6. The project also includes Disaster Recovery Server upgrade.

The Client

Our Client is one of the leading real estate development groups in India. They are mainly into the development of premium residential, commercial, retail, integrated townships, lifestyle gated communities and redevelopment projects primarily in the Mumbai Metropolitan Region (MMR) & Pune. The group is also undertaking projects in other key cities such as Hyderabad, Surat, Nagpur, and Jaipur & Udaipur.

The Business Requirement

To upgrade existing SAP system landscape comprising of Sandbox, Development, Quality, Production and Disaster Recovery servers from SAP ECC 6.0 EHP5 to SAP ECC 6.0 EHP6.

Technology:

SAP Solution	:	SAP ECC 6.0
Modules	:	FI, CO, MM, SD, BI
Database	:	Oracle 11g
Operating System	:	Windows server 2008

Project Summary

Industry: Real Estate

Client Profile:

Our Client is into real estate. They are one of the leading real estate development groups in India. They are mainly into the development of premium residential, commercial, retail, integrated townships, lifestyle gated communities and redevelopment projects
